Chapter 4

4.1a) For this case $x_i = 0$
and $h = x$, thus

$$f(x) = f(0) + f'(0)x + \frac{f''(0)}{2}x^2 + \dots$$

$$f(0) = f(0) = f'(0) = 1$$

$$\therefore f(x) = 1 + x + \frac{x^2}{2} + \frac{x^3}{6} + \dots$$

$$b) f(x_{i+1}) = e^{-x_i} - e^{-h} + e^{-\frac{x_i}{2}} - e^{-\frac{x_i}{4}} + \dots$$

$$\text{for } x_i = 0.25 \text{ and } x_{i+1} = 1,$$

$$h = 0.75$$

zero order:

$$f(1) \approx e^{-0.25} = 0.778801$$

$$\text{true value} = e^{-1.0} = 0.367879$$

$$E_t = \frac{0.367879 - 0.778801}{0.367879} \times 100$$

$$E_t = -111.7\%$$

first order:

$$f(1) \approx 0.778801 - 0.778801(0.75) = 0.1947$$

$$E_t = 47.11\%$$

second order:

$$f(1) \approx 0.778801 - 0.778801(0.75) + 0.778801 \left(\frac{0.75}{2}\right)^2$$

$$f(1) \approx 0.413738$$

$$E_t = -12.46\%$$

third order:

$$f(1) \approx 0.413738 - 0.778801 \left(\frac{0.75}{3}\right)^3$$

$$f(1) \approx 0.358978$$

$$E_t = 2.42\%$$

$$4.2) \cos \pi/4 = 0.707107$$

zero order:

$$\cos(\pi/4) \approx 1$$

$$\text{true value} = \cos(\pi/4) = 0.707107$$

$$E_t = \frac{0.707107 - 1}{0.707107} \times 100 = -41.42\%$$

first order:

$$\cos(\pi/4) = 1 - \frac{(\pi/4)^2}{2}$$

$$= 0.691575$$

$$E_t = \frac{0.691575 - 1}{0.691575} \times 100 = -41.6\%$$

As of now with several updates were needed as the first Windows 10 version had so many bugs that many people didn't opt for it and went with installing the old and successful Windows 8 or 8.1. Also, we can call Windows 10 a hybrid of Windows 8 and Windows 7. But now after so many huge updates let's look at some reasons to opt for Windows now in 2022 as there isn't any Windows 12 coming anytime soon. For Windows 10, Microsoft has adopted a model of releasing two feature upgrades per year, as well as nearly monthly updates for bug fixes, security fixes, and enhancements. There will be no new Windows operating system released. Existing versions of Windows 10 will continue to receive updates. As a result, Microsoft has been all set to unveil the next version of Windows 11 on 2022. The new update is the Sun Valley Update. Fans are hoping for the new version of windows to be called Windows 11.Download Windows 10 Full Free (ISO 32-64 Bit) Free 2021First, we all know that Windows is worldwide or we can say 90% of computers are running on Windows operating system. This is because of Microsoft's best user-friendly interface, and so far they are making their Graphics and User interface smarter and lighter.No doubt, each and every person can use Windows without any problem. Indeed, Windows are quite simple to install and recover. Somehow, many are spreading a rumor that Windows Never Defeat Apple's OS i.e MAC.Windows is considered the most popular and successful operating system to ever come into the market. Every time when there is any new update coming over windows. Then everyone just gets curious about what they can expect this time from the best player in the market.What do you think that MAC is better than Windows? Obviously, many of you never use MAC OS? but this is the truth that you regularly use Windows-Based Computers. So no doubt, you can say Windows is best and it has loads of features that MAC doesn't have.Also Read: Best Windows 10 Themes and SkinsFeatures in Windows 10 Full Free Available in 2022Why should you install Windows 10? Relax! Here I shared it's some of the best pros that help you to choose Windows 10 right next to your Computer.The most basic thing is the start menu is back with its look somewhat like the old start menu from Windows 8.1. Features such as live tiles are back, and these tiles can be resized.2. Redesigned task viewerMicrosoft has dumped the Windows 8 task switcher as it has come up with a new task viewer in Windows 10 which allows users to switch between virtual desktops. This move could have been inspired by the novice who use the taskbar to switch between desktops instead of other provided shortcuts (Alt+Tab).3. Universal apps Metro apps/ Modern apps/ Windows Store apps are renamed universal apps. These apps could also work on Windows phones, but there is no confirmed news as of now. There will be a single app store access for all Windows 10 users. Also, all older Windows apps will work on Windows 10. The new universal apps work across the lot from phones to servers. Notably, they will float in their Windows.4. Consolidated screensMicrosoft has ruled out the different menu screens and displays in Windows 10. Instead, it has put both of them on the same screen now. The newly designed start menu has all the apps/ programs located in one place, and this start menu can be customized by the users.5. CortanaCortana is a personal assistant assigned to every Windows 10 user by Microsoft. Cortana can answer the questions asked by the user. Cortana can be used to know the weather conditions or to send emails etc. Cortana also helps to search for information on Google. An alternative to Cortana is also available to the users. Bing, a search engine also helps to search for answers to your questions.6. High-level security Windows 10 has set new limits in case of security with its unmatched security options provided to the users. One can use face detection along with fingerprint and PIN as a password. Also, visual passwords or 3- motion gesture passwords can be used to secure private data. If the user is not comfortable with either of these security options then, account information can be set as a password.Also Read: Best Rainmeter Skins and Themes for Windows 7/8/10Minimum System (Computer) Requirements:Before moving ahead lemme clear the main doubt in your mind about your computer minimum specifications or requirements:Processor: 1 GHz or faster processor or SoC (System on a chip). 64-bit versions of Windows 10 require a processor that supports CMPXCHG16b, PrefetchW, and LAHF/SAHF capabilities.RAM: At least 1 GB for 32-bit or 2 GB for 64-bitGraphics: DirectX 9 or later with WDDM 1.0 driver.
